JUL 1 1963

TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 3

May, 1961—April, 1962

A

Accident and Casualty Rates 1960, Road, by H. D. Johnston and J. C. Tanner, 726
Accident Frequency after the Provision of By-Passes, Changes in. Before and After Study by Valerie J. Newland and R. F. Newby, 614
Accident Frequency at Signal-Controlled Crossroads with an All-Red Period, by R. F. Newby, 102
Accident Frequency in London Area, 40 mile/h Effect on, by R. F. Newby, 678
Accidents, Advisory Speed Signs on Curves reduce, by M. Ross Palmer, 733
Accidents, Can Crash Barriers Lessen Cross-Median, 673
Accidents Could be Halved, Night, by Herbert A. Friede, 629
Accidents, Experimental Case Studies of Traffic, (1) 359, (2) 409
Accidents, Research into Highway Traffic, by H. J. J. Starks, F. Garwood, G. O. Jeffcoate and R. J. Smeed, 493
Advance Direction Signs and Specular Reflections, by M. J. Gregsten, 347
Advance Warning of Halted Vehicles, by Cornelis Kuysten, 365
Advisory Speed Signs on Curves Reduce Accidents, by M. Ross Palmer, 733
American Expressway Signs, 689
American Mercury Vapour Lighting, 695
American Reports, 98, 172, 283, 359, 222, 409, 540
A.P.L.E. Conference Discusses Revised Code of Practice, 433
Asphalt, Characteristics of Rolled, by A. W. Attwooll, 567
Assistance for Roads in Under-Developed Countries, by Christopher Brunner, 226
Auckland, Meters in, by N. A. Lake, 53
Australian Report, Perth's Narrows Bridge and its Approaches, by D. J. Davies, 222

B

Baker Street One-Way Scheme, 544
Bibliography of Traffic Engineering (3), 59
Birmingham Bull Ring Shopping Centre, 124
Bituminous Road Materials Research, by J. H. Nicholas, 631
Book Reviews, Geometric Design of Modern Highways, 432; Factors Affecting the Amount of Travel, 489; Town and Traffic in the Motor Age, 489; The Planning of a New Town, 624; Provision of Car Parks in Shopping and Commercial Centres, 624; Soil Mechanics in Road Construction, 624; Transport in Greater London, 693; Townscape, 693.
Bridge Lighting, Developments in, by V. J. Jehu, 305
Burton upon Trent, Through Traffic Prohibition, by J. P. Wain and D. W. G. Fretwell, 361

C

Canadian Report—Highway Planning Study Vancouver, by Peter Long, 154
Case for Urban Motorways, by Wilfrid Andrews, 33
Central Business District Land Use and Traffic Generation, by H. M. Edwards and B. S. C. Harper, 236
Central Development Newcastle upon Tyne, 117
Chelmsford's O-D Survey—Postcard Traffic Study, by David C. Reynolds, 468
Characteristics of Rolled Asphalt, by A. W. Attwooll, 567
City of Johannesburg Traffic Plan, by W. Pryce Rosser, 718
Community Parking Programme, by James B. Saag, 250
Comprehensive Redevelopment—Opportunity for Traffic, by C. D. Buchanan, 106
Continuous Signal-Controlled Reversible Lanes, by Rex. G. Still, 745
Courses in Traffic Engineering, 61; Hatfield College of Technology, by G. J. Hussey, 243; Road Research Laboratory, 549
Critical Amber Period—Driver Behaviour at Traffic Lights, by A. Crawford and D. H. Taylor, 473
Cumbernauld New Town, Traffic Planning in, by G. P. Crow, 112
Cumbernauld—Road Planning and Town Planning are Inseparable, by L. Hugh Wilson, 530

D

Defining Trafficability, by Staffan Grundén, 722
Design and Operation of Rural Freeways—Report from Washington, by Charles M. Noble, 428
Detroit, Parking Problem Solved in, by J. D. McGillis, 490
Developments in Bridge Lighting, by V. J. Jehu, 305
Direction Signs and Specular Reflections, Advance, by M. J. Gregsten, 347
Doncaster By-Pass, by S. Maynard Lovell, 291
Driver Behaviour at Traffic Lights—Critical Amber Period, by A. Crawford and D. H. Taylor, 473

E

Eastbourne's Five Year (Lighting) Plan 1958-1963, by B. C. Ossitt, 121
Edgelining Makes Rapid Gains, by Alex L. Martin, 540
Edinburgh Region Traffic Survey, by G. M. Dickson, 216
Effect of the M1 on Journey Time and Fuel Consumption, by R. F. F. Dawson, 406
Enfield's Town Centre Project, by H. D. Peake, 90
Estimation of Traffic by Gravity Model, by Kenneth P. Furness, 663
Experimental Case Studies of Traffic Accidents, (1) 359; (2) 409

F

Forty mile/h Effect on Accident Frequency in London Area, by R. F. Newby, 678
Freeway Operation, by K. Vaughan-Birch, 431
Freeways, Design and Operation of, by Charles M. Noble, 428

Future Developments in Traffic Signals, by F. V. Webster, 108
Future Urban Traffic Patterns, by R. Hodgen, 350

G

Gathurst Viaduct, 561
Glasgow's Comprehensive Traffic Study, Survey by Roadside Interview, by R. Hodgen, 596
Glass Fibre Street Lighting Columns, by E. H. Austen, 247
Gravity Model, Estimation of Traffic by, by Kenneth P. Furness, 663

H

Hammersmith Broadway Roundabout, Weaving Capacity of, by B. K. Asproth, 344
Hammersmith Flyover, Significance of, by Richard Edmonds, 483
Hatfield College of Technology, Courses in Traffic Engineering, by G. J. Hussey, 243
Headlight Glare, Problem of, by V. J. Jehu and G. Hirst, 545
Highway Planning Study Vancouver, by Peter Long 154
Hook New Town—Roads and Traffic Plan, by John Craig and Edwin Schoon, 590

I

Interdisciplinary Approach to Road Safety Research, by Frank McGlade, 730
Intersections, Planning Traffic, by Dr.-Ing. Max-Erich Feuchtinger, (1) Channelized Intersections, 287; (2) Crossroads and Roundabouts, 356; (3) City Main Streets, 415; (4) Rural Motorways, 538
Intersections, Traffic Aspects at Urban, by Hanskarl Schreiner, 230
Instrumentation for Traffic Studies, by J. A. Hillier, 49
Instruments for Traffic Engineers, Traffic Counting Equipment, 617

J

Johannesburg Traffic Plan, City of, by W. Pryce Rosser, 718

K

Kerbs, Reflectors on Roads with Raised, by A. W. Christie, 169

L

Land Use and Traffic Generation, Central Business District, by H. M. Edwards and B. S. C. Harper, 236
Leicester Modernizes its Street Lighting, by Philip Hartill, 563
Leicester's Alternative to Parking Meters, 682
Letters to the Editor, 48, 243, 309, 501
Lighting, 55, 121, 189, 247, 305, 367, 369, 433, 503, 563, 629, 695, 741
Local Authority Parking Quiz, 619
London Traffic Management Unit Improves London's Traffic Flow, by G. Charlesworth, 603

M

M1 on Journey Time and Fuel Consumption, Effect of the, by R. F. F. Dawson, 406
Meters in Auckland, by N. A. Lake, 53
Motor Show Parking Quiz, by B. D. Hankin, 412
Motorway Design, Safety Aspects of, by W. F. Adams, 178
Moving-Observer Method, Traffic Volumes Journey Times and Speeds by, by T. E. H. Williams and J. Emmerson, 159
Multi-Storey Parking Garages, by L. T. C. Beasley, 625
Munich's Transport, Planning, by Prof. Dr.-Ing. habil. K. Leibbrand, 37
Municipal Engineers Debate—Planning for Traffic, 421

N

New Zealand, Report from, Advisory Speed Signs on Curves Reduce Accidents, by M. Ross Palmer, 733
Newcastle upon Tyne, Central Development, 117
Night Accidents Could be Halved, by Herbert A. Friede, 629

O

O & D Survey, Chelmsford. Postcard Traffic Study, by David C. Reynolds, 468
O & D Survey, Wrexham's Traffic Study, by D. M. Craig, 163
O-D Surveys are not Infallible, by R. M. Hare, 609
One-Way Scheme, Baker Street, 544
Operation of Rural Freeways, Design and, Report from Washington, 428

P

Paisley, Public Lighting in, by John Wilson, 367
Parking Meters, Leicester's Alternative to, 682
Parking Problem Solved in Detroit, by J. D. McGillis, 490
Parking Programme, Community, by James B.Saag, 250
Parking Section, 53, 125, 182, 250, 296, 412, 619
Pedestrian Crossings, New 502
Pedestrian Crossing, Road User Behaviour at, by S. J. Older and Julia M. Basden, 94
Pedestrian-Vehicle Conflict, Resolving the, by Richard Edmonds, 27
Penn Jersey Study, by Henry Fagin, 660
Perth's Narrows Bridge and its Approaches, by D. J. Davies, 222
Pittsburgh Region, Transportation Planning in the, by Louis E. Keefer, 283
Planning for Traffic—Municipal Engineers Debate, 421
Planning Munich's Transport, by Prof. Dr.-Ing. habil. K. Leibbrand, 37
Planning Traffic Intersections, by Dr.-Ing. Max-Erich Feuchtinger, (1) Channelized Intersections, 287; (2) Crossroads and Roundabouts 356; (3) City Main Streets, 415; (4) Rural Motorways, 538
Postcard Traffic Study—Chelmsford's O-D Survey, by David C. Reynolds, 468
Practical Traffic Surveys, by B. L. Allen, 499
Problem of Headlight Glare, by V. J. Jehu and G. Hirst, 545
Profile—Professor J. Kolbuszewski, 52; Christopher T. Brunner, 301; Stuart Maynard Lovell, 371; Brig. R. F. E. Stoney, 420; John L. Beckett, 488; Henry T. Hough, 618
Progress in Traffic Engineering, by John Hay, 24
Public Lighting in Paisley, by John Wilson, 367

Q

Question of Priorities, A, by Sir William Holford, 30

R

Raised Footways in Urban Central Areas, by J. W. Dark, 553
Reflectorized Edgelining, by Alex L. Martin, 540
Reflectors on Roads with Raised Kerbs, by A. W. Christie, 169
Report from New Zealand. Advisory Speed Signs on Curves Reduce Accidents, by M. Ross Palmer, 733
Report from Soviet Russia—Town Traffic Problems, by A. Stramentov, 479
Report from South Africa, City of Johannesburg Traffic Plan, by W. Pryce Rosser, 718
Research into Highway Traffic Accidents, by H. J. H. Starks, F. Garwood, G. O. Jeffcoate and R. J. Smeed, 493
Resolving the Pedestrian-Vehicle Conflict, by Richard Edmonds, 27
Reversible Lanes, Continuous Signal-Controlled, by Rex G. Still, 745
Road Accident and Casualty Rates 1960, by H. D. Johnston and J. C. Tanner, 726
Road Enquiry Deficiencies, by M. E. Beesley, 668
Road Planning and Town Planning are Inseparable, by L. Hugh Wilson, 530
Road Research 1960, 424
Road Research in India, 298
Road Research Laboratory Courses, 624
Road Safety, 102
Road Safety, Lighting and, by F. Bähler, 189
Road Safety Research, Interdisciplinary Approach to, by Frank McGlade, 730
Road Safety—Safety Straps, by Brig. R. F. E. Stoney, 299
Road Traffic in the Counties, by James Drake and R. A. Kidd, 422
Road Training Year, by Brig. R. F. E. Stoney, 737
Road User Behaviour at a Pedestrian Crossing, by S. J. Older and Julia M. Basden, 94
Roadside Interview, Survey by, Glasgow's Comprehensive Traffic Study, by R. Hodgen, 596
Rubber in Roads, by A. R. Smee, 439

S

Safety Aspects of Motorway Design, by W. F. Adams, 178
Safety Straps—Road Safety, by Brig. R. F. E. Stoney, 299
Signal-Controlled Crossroads with an All-Red Period, Accident Frequency at, by R. F. Newby, 102
Signal-Controlled Reversible Lanes, Continuous, by Rex. G. Still, 745
Signal Maintenance—Traffic Control Devices, 185
Significance of Hammersmith Flyover, by Richard Edmonds, 483
South Africa, Report From. City of Johannesburg, Traffic Plan, by M. Pryce Rosser, 718
South Wales Traffic Survey—Road Deficiencies and Traffic Needs Assessed, 548
Soviet Russia, Report from—Town Traffic Problems, by A. Stramentov, 479
Specular Reflections, Advance Direction Signs and, by M. J. Gregsten, 347
Survey by Interview, by Henry Durant, 738
Survey by Roadside Interview. Glasgow's Comprehensive Traffic Study, by R. Hodgen, 596
Surveys, Practical Traffic, by B. L. Allen, 499

T

Through Traffic Prohibition Burton upon Trent, by J. P. Wain and D. W. G. Fretwell, 361
Tottenham Court Road One-Way Traffic Area, 244
Town Traffic Problems—Report from Soviet Russia, by A. Stramentov, 479
Traffic Aspects of Urban Intersections—European Report, by Hanskarl Schreiner, 230
Traffic Control Device Manual, by Burton W. Marsh and William L. Carson, (1) Signs and Markings, 98; (2) Signals and Islands, 172
Traffic Control Devices—Signal Maintenance, 185
Traffic Counting Equipment, Instruments for Traffic Engineers, 617
Traffic Design in Urban Areas, by J. T. Duff, 183
Traffic Engineering, Courses in, 61, 243, 549
Traffic Engineering in Practice, by H. T. Hough and N. H. Stockley, 557
Traffic Engineering. Progress of, by John Hay, 24
Traffic Engineering Study Group, 49, 108, 112, 178, 499, 553, 625, 685
Traffic Engineers Discuss Road Lighting—Lighting at Washington Conference, by Granville Berry, 503
Traffic Lights, Driver Behaviour at—Critical Amber Period, by A. Crawford and D. H. Taylor, 473
Traffic Planning in Cumbernauld New Town, by C. P. Crow, 112
Traffic Problems in Towns, by R. J. Smeed, 43
Traffic Sign Design, by R. L. Moore, 685
Traffic Signals, Future Developments in, by F. V. Webster, 108
Traffic Simulation for Urban Areas, by R. Brain, 534
Traffic Studies at a Rural Junction, by B. G. Manton, 278
Traffic Studies, Instrumentation for, by J. A. Hillier, 49
Traffic Study, Glasgow's Comprehensive, Survey by Roadside Interview, by R. Hodgen, 596
Traffic Study, Postcard—Chelmsford's O-D Survey, by David C. Reynolds, 468
Traffic Study, Wrexham's. O & D Survey, by D. M. Craig, 163
Traffic Survey, Edinburgh Region, by G. M. Dickson, 216
Traffic Surveys, Practical. by B. L. Allen, 499
Traffic Symposium, 106, 183
Traffic Volumes, Journey Times and Speeds by Moving-Observer Method, by T. E. H. Williams and J. Emmerson, 159
Trafficability, Defining, by Staffan Grundén, 722
Trans-Canada Highway, 362
Transportation Planning in the Pittsburgh Region, by Louis E. Keefer, 283
Twelve Months Progress in Lighting, by Granville Berry, 55

U

Under-Developed Countries, Assistance for Roads in, by J. T. Duff, 183
Urban Areas, Traffic Design in—Traffic Symposium, by J. T. Duff, 183
Urban Areas, Traffic Simulation for, by R. Brain, 534
Urban Central Areas, Raised Footways in, by J. W. Dark, 553
Urban Motorways, Case for, by Wilfrid Andrews, 33
Urban Traffic Patterns, Future, by R. Hodgen, 350

V

Vancouver, Highway Planning Study, by Peter Long, 154

W

Warning of Halted Vehicles, Advance, by Cornelis Kuysten, 365
Weaving Capacity of Hammersmith Broadway Roundabout, by B. K. Asproth, 344
Wentbridge Viaduct, 561
Woolwich's Automatic Garage, 125
World Traffic Engineering Conference, 116, 428, 431, 493, 503
Wrexham's Traffic Study. O & D Survey, by D. M. Craig, 163
